

MASONRY CONSTRUCTION

1. A limited access zone should be established when a masonry wall is being constructed.
2. The limited access zone should be established prior to the start of construction of the wall.
3. The limited access zone shall be equal to the height of the wall to be constructed plus four feet and shall run the entire length of the wall.
4. The limited access zone shall be established on the side of the wall without scaffolding.
5. The limited access zone shall be restricted to entry by workers actively engaged in constructing the wall.
6. The limited access zone shall remain in place until the wall is adequately supported.
7. All masonry walls over 8 feet in height shall be adequately supported and be braced unless the wall is supported by other means.
8. Bracing shall remain in place until permanent supporting elements of the structure are in place.
