

# Garbage Disposal

1. Turn on the water and let it run while using the garbage disposal.
2. Do not feed the garbage disposal until the unit has started and water is running.
3. Feed the garbage into the disposal in a steady and continuous flow.
4. Never overload the disposal with excess amounts of garbage.
5. Never put your hands into the disposal while it is in operation.
6. Shut the disposal off when operation is finished.
