

Oven, Grills, and Deep Fat Fryers

1. Review all operating instructions from the manufacturer before using the equipment.
2. Always use the proper hot pads and other personal protection equipment when using the equipment.
3. Schedule regular maintenance to prevent a buildup of grease and other combustible material.
4. Inspect the floor often and clean up any grease or food on it.
5. Clean overhead fans and exhaust areas weekly.
6. An ABC fire extinguisher needs to be mounted and clearly marked in the cooking area.
