January 2025

Notice

The five-character numeric codes included in the North Dakota Fee Schedule are obtained from Current Procedural Terminology (CPT®), copyright 2024 by the American Medical Association (AMA). CPT is developed by the AMA as a listing of descriptive terms and five character identifying codes and modifiers for reporting medical services and procedures performed by physicians. The five character alphanumeric codes included in the North Dakota Fee Schedule are obtained from HCPCS Level II, copyright 2024 by Optum360, LLC. HCPCS Level II codes are maintained jointly by The Centers for Medicare and Medicaid Services (CMS), the Blue Cross and Blue Shield Association (BCBSA), and the Health Insurance Association of America (HIAA).

The responsibility for the content of the North Dakota Fee Schedule is with WSI and no endorsement by the AMA is intended or should be implied. The AMA disclaims responsibility for any consequences or liability attributable or related to any use, nonuse or interpretation of information contained in North Dakota Fee Schedules. Fee schedules, relative value units, conversion factors, and/or related components are not assigned by the AMA, and are not part of CPT, and the AMA does not recommend their use. The AMA does not directly or indirectly practice medicine or dispense medical services. The AMA assumes no liability for data contained or not contained herein. Any use of CPT outside of North Dakota Fee Schedule should refer to the most current Current Procedural Terminology, which contains the complete and most current listing of CPT codes and descriptive terms. Applicable FARS/DFARS apply. CPT is a registered trademark of the American Medical Association.

The WSI Fee Schedule is not a guarantee of payment. The fact that WSI assigns a procedure or service a HCPCS code and a payment rate does not imply coverage by WSI but indicates the maximum allowable payment for approved services. Services represented are subject to provisions of WSI including: compensability, claim payment logic, applicable medical policy, benefit limitations and exclusions, bundling logic, and licensing scope of practice limitations.

Any changes made to Pricing Methodology are subject to the North Dakota Public Hearing process. WSI reserves the right to implement changes to the Payment Parameters, Billing Requirements, and Reimbursement Procedures as needed. WSI incorporates all applicable changes into the relevant Fee Schedule Guideline at the time of implementation, and communicates these changes in Medical Providers News, available on the WSI website at www.workforcesafety.com/news/medical-providers. WSI reviews and updates all Fee Schedule rates on an annual basis, with additional updates made on a quarterly basis when applicable.

For reference purposes, the sections of the North Dakota Administrative Code (N.D.A.C.) that regulate medical services are **92-01-02-27 through 92-01-02-46**. The complete N.D.A.C. is accessible on the North Dakota Legislative Council [website](http://www.legis.nd.gov/agency-rules/north-dakota-administrative-code): <http://www.legis.nd.gov/agency-rules/north-dakota-administrative-code>.

North Dakota Workforce Safety & Insurance

Long Term Care Hospital Pricing Methodology

Long Term Care Hospital (LTCH) Pricing Methodology outlines the methods used by Workforce Safety and Insurance (WSI) to determine the final rates represented on the Long Term Care Hospital Fee Schedule. The Long Term Care Hospital Fee Schedule uses Medicare Severity Diagnosis Related Groups (MS- DRGs) and their respective payment amounts. In accordance with [North Dakota Administrative Code 92-01-02-29.2](#), any provider who renders treatment to a claimant under the jurisdiction of WSI is reimbursed according to the rates assigned in the Inpatient Hospital Fee Schedule. A provider may access the complete [Long Term Care Hospital Fee Schedule](#) and other resources referenced within this document by visiting the Medical Provider section of the WSI website: www.workforcesafety.com.

Calculation of the Reimbursement Rates

Inpatient Long Term Care Hospital Services

WSI reimburses inpatient LTCH services based on Diagnosis Related Groups (DRGs). WSI uses the following formula to calculate the LTCH WSI DRG Rate:

$$\text{Base Rate} \quad \times \quad \text{Medicare's MS-DRG Weights} \quad = \quad \text{WSI LTCH DRG Reimbursement Rate}$$

For 2025, the Base Rate for the LTCH DRG payments is \$259,720.00.

If necessary, WSI adjusts the WSI base rate to account for aggregate weight changes. WSI does not adjust this formula for wage index factors, the LTCH Quality Reporting Program or other special Medicare programs.

High-Cost Outlier Calculations

WSI uses the following formula for calculating the reimbursement rate for bills that reach the high-cost outlier threshold:

$$\text{LTCH DRG Amount} \quad + \quad [(\text{Billed Charges} - (\text{DRG Amount} + \text{Threshold})) \times .80] \quad = \quad \text{Reimbursement Rate}$$

For 2025, the high-cost outlier threshold is \$140,000.00.

WSI sets the outlier target for each year at an amount equal to 10% of the estimated LTCH DRG payments plus the anticipated outlier payments. Estimated DRG payments are based on claims paid between January 1 and September 30th of the current year. WSI multiplies the following year's conversion factor by the following year's weights to arrive at estimated DRG payments. WSI rounds the outlier threshold to the nearest \$500.

Short-Stay Outlier Calculations

WSI incorporates a short-stay outlier calculation in the LTCH Fee Schedule. The short-stay outlier calculations are used when the actual length of stay is less than or equal to 5/6 of the Average Length of Stay (ALOS) for the MS-LTCH-DRG assigned to the case.

WSI uses the following formula for calculating the reimbursement rate for bills that are subject to the short-stay outlier calculations:

$$[(\text{LTCH DRG Amount} / \text{ALOS}) \times \text{Actual LOS}] \quad \times \quad 1.2 \quad = \quad \text{Reimbursement Rate}$$

Annual Updates

WSI updates the LTCH Fee Schedule base rate each year based on the LTCH Market Basket increase published by Medicare in the LTCH Prospective Payment System final rule. WSI makes appropriate adjustments for DRG weight changes when necessary.

Limitations of the Inpatient Hospital Fee Schedule

The payment rates listed on the Inpatient Hospital Fee Schedule indicate the maximum allowable payment for approved services only. The fact that a procedure or service is assigned a HCPCS code and a payment rate does not imply coverage by WSI but indicates the maximum allowable payment for approved services. The final payment rate may be impacted by the payment parameters and billing requirements enforced by WSI. A hospital is encouraged to carefully review WSI's Payment Parameters, Billing Requirements, and Reimbursement Procedures to avoid unnecessary delays and denials of payment.

North Dakota Workforce Safety & Insurance

Long Term Care Hospital Payment Parameters

Long Term Care Hospital (LTCH) Payment Parameters outline the rules for payment adopted by WSI. While WSI has adopted many of Medicare's rules for payment, WSI has developed a set of unique rules that are applied to the final payment of approved services. The complete payment parameters enforced by WSI are as follows:

Advanced Beneficiary Notice (ABN) – A provider may utilize the ABN form to notify an injured employee of the costs associated with a recommended procedure that is: statutorily excluded from coverage, statutorily limited in quantity, deemed by WSI as not medically necessary to treat the work injury. To identify a charge accompanied with a signed ABN, a provider should append modifier GA to each applicable bill line. A provider should then submit the signed ABN along with the bill and medical documentation to WSI.

Authorization – All LTCH admissions must be prior authorized. A LTCH must submit the request for prior authorization at least 24 hours prior to the proposed admission or surgery.

End of Year Admission Reimbursement – For hospital admissions beginning in one year and spanning into the next year (e.g., 12/30/19 – 1/02/20), WSI issues reimbursement based on the fee schedule rate in effect at the date of admission.

Prospective Payments – WSI pays long term care hospital services at the rate indicated on the WSI Long Term Care Hospital Fee Schedule, regardless of the billed amount, except for codes assigned a status indicator of 'Z'. For codes assigned a status indicator of 'Z', WSI pays the "lesser of" the billed charge or the Fee Schedule amount.

North Dakota Workforce Safety & Insurance

Long Term Care Hospital Billing Requirements

Long Term Care Hospital (LTCH) Billing Requirements outline the rules for billing adopted by WSI. WSI returns or denies inappropriately submitted bills. WSI notifies a provider of inappropriately submitted bills via a return letter or remittance advice. A provider must correct any returned bills prior to resubmission.

Bill Form – A LTCH must submit a medical bill for an inpatient stay on a standard UB-04 form or via EDI.

Bill Form Submission – WSI offers the following options for bill submission:

Electronic Billing – A provider submitting more than 50 bills per year to WSI must send charges electronically through Carisk Intelligent Clearinghouse. This option allows for the electronic submission of professional (837p) and institutional (837i) charges along with supporting medical documentation. Contact Carisk at 888-238-4792 for additional information.

Paper Billing – A provider submitting less than 50 bills per year to WSI may send charges in red and white paper format with supporting medical documentation at the following address:

Workforce Safety & Insurance
PO Box 5585
Bismarck, ND 58506

Coding – A LTCH is required to bill using only current and appropriate CPT, HCPCS Level II, and MS-DRG codes for inpatient hospital and LTCH services.

Device Replacements – A LTCH must report a manufacturer's device replacement credit with Value Code FD when the credit is 50% of the cost or more.

Interrupted Stay Calculations – WSI incorporates the Medicare LTCH Interrupted Stay Calculations. When a patient discharge and subsequent re-admission meets the interrupted stay criteria, a LTCH must combine both stays into a single bill and submit as a single stay. The interrupted stay criteria are:

- All interruptions of 3 days or less
- Interruptions of 4-9 consecutive days – patient admitted to an inpatient acute care hospital
- Interruptions of 4-27 consecutive days – patient admitted to an Inpatient Rehab Facility
- Interruptions of 4-45 consecutive days – patient admitted to a SNF/Swing Bed facility

Interruptions that exceed the above criteria are billable and payable as separate stays.

Medical Documentation – A LTCH must submit medical documentation to support all billed charges. WSI's [Documentation Policies](#) are available for detailed information on documentation requirements.

Medical Necessity- A LTCH is required to bill using the same medical necessity guidelines used for Medicare.

National Provider Identification (NPI) – WSI requires entities who are eligible for NPI to be registered with National Plan & Provider Enumeration System. When applicable, WSI requires LTCHs to include the NPI at both the rendering provider and billing provider levels.

Timely Filing – A LTCH must submit bills to WSI within 365 days of the date of discharge.

North Dakota Workforce Safety & Insurance

Long Term Care Hospital Reimbursement Procedures

Long Term Care Hospital (LTCH) Reimbursement Procedures outline how WSI communicates bill processing information and issues payment to a LTCH. In addition, it outlines the WSI's requirements for reimbursement. A LTCH is encouraged to follow WSI Reimbursement Procedures to prevent delays in the payment processing of medical charges submitted to WSI.

Provider Registration – Prior to reimbursement for treatment, a provider is required to register the applicable Billing NPIs with WSI by completing the [Medical Provider Payee Registration](#) form. For additional information, visit the [Provider Registration](#) section of WSI's website.

Payment Address – WSI issues payment to the Pay-to Address registered on the [Medical Provider Payee Registration](#) form, regardless of the address submitted on the bill form. To update a payment address, a provider must resubmit the registration form for each applicable Billing NPI.

Remittance Advice – WSI issues remittance advices for processed medical bills each Friday. The remittance advice includes important information about a medical charge, including: patient name, date of service, procedure billed, billed amount, paid amount, and remittance advice reason codes. A provider should refer to the [How to Read the WSI Remittance Advice](#) document for assistance with interpretation of the remittance advice. This reference includes a sample remittance advice, along with definitions for significant fields within the remittance advice. Contact customer service at 1-800-777-5033 with questions or to obtain a duplicate remittance advice.

Reason Codes – The [WSI Remittance Advice Reason Codes](#) document provides a comprehensive listing and description of the reason codes utilized by WSI. Each reason code identifies a cause for the adjudication of a medical charge and specifies whether a provider may bill a patient. When a reason code specifies a provider may bill a patient, WSI sends a "Notice of Non-Payment" letter to the patient informing them of their responsibility for the charge. In accordance with [North Dakota Administrative Code 92-01-02-45.1](#), if a reason code does not state that a provider may bill a patient, the provider cannot bill the charge for the reduced or denied service to the patient, the employer, or another insurer.

Bill Status Inquiries – Bill status information is available 24/7 via myWSI. The Provider Bill Status application permits a registered user to view bill receipt status and processing details as well as export results. For access, a practice must submit a [myWSI Portal Registration \(M14\) form](#) for each group/billing NPI. With the availability of this resource, a provider or their TPA will not need to contact WSI via phone or email to inquire on the status of a billed charge.

Overpayments – When an overpayment occurs on a medical bill, WSI will notify the LTCH of the overpayment in a letter. WSI allows 30 days from the date of the letter for a LTCH to issue the requested refund. If a LTCH does not issue the refund within 30 days of the date of the letter, WSI will withhold the overpayment from future payments.

Medical Services Disputes – [North Dakota Administrative Code 92-01-02-46](#) provides the procedures followed for managed care disputes. A LTCH who wishes to dispute a denial or reduction of a service charge must submit the [Medical Bill Appeal \(M6\)](#) form, along with supporting documentation, within 30 days of the remittance advice issue date. WSI will not address a LTCH dispute submitted without the M6 form.
