

# SAFETY — YOUR KEY TO LIFE'S BEST MOMENTS.

Work is important, but life beyond it is precious. Getting home safely means more time for what truly matters — things like pursuing your personal passions and creating memories with loved ones.

## Safety Is Everyone's Responsibility

### MANAGERS — YOU SET THE TONE

- ▲ **Foster the Culture:** Model safe behavior, involve employees, and promote accountability.
- ▲ **Communicate and Equip:** Hold safety meetings and provide thorough training and necessary personal protective equipment.
- ▲ **Maintain:** Reward safe practices, celebrate milestones, analyze incidents, and ensure safe conditions.

### EMPLOYEES — OWN YOUR SAFETY

- ▲ **Stay Aware:** Always pay attention to what's happening around you. Speak up immediately if you notice unsafe conditions.
- ▲ **Work Safely:** Adhere to safety policies to prevent injuries proactively.
- ▲ **Engage:** Participate in safety committees and attend training sessions.

We all deserve a safe work environment. Let's create it together.
