

Quick Reference for  
Medical Provider COVID-19

# BILLING CODES

## Laboratory Testing Codes for COVID-19

Description	
<b>G2023*</b>	Specimen collection for COVID-19
<b>G2024*</b>	Specimen collection for COVID-19 from skilled nursing facility or lab on behalf of a home health agency
<b>C9803</b>	Hospital outpatient clinic visit specimen collection for COVID-19
<b>99211</b>	Physician assessment and specimen collection for COVID-19; not billable with another Evaluation and Management code for a concurrent service
<b>U0001</b>	CDC labs testing for COVID-19
<b>U0002</b>	Non-CDC labs testing for COVID-19
<b>U0003</b>	High-throughput technologies for infectious agent detection
<b>U0004</b>	High-throughput technologies for non-CDC
<b>0202U</b>	BioFire® Respiratory Panel 2.1
<b>0223U</b>	Proprietary lab analyses; automated molecular assay providing detection of multiple respiratory pathogens via nasopharyngeal swabs
<b>0224U</b>	Proprietary lab analyses; detection of antibodies in serum and plasma
<b>0225U</b>	Proprietary lab analyses; detection of infectious agent by nucleic acid (DNA and RNA) by amplified probe technique
<b>0226U</b>	Proprietary lab analyses; high-throughput quantitative blocking ELISA assay to assess viral neutralization capacity to COVID-19
<b>0240U</b>	Proprietary lab analyses; upper respiratory specimen for RT-PCR detection of viral RNA from COVID-19, influenza A and influenza B
<b>0241U</b>	Proprietary lab analyses; upper respiratory specimen for RT-PCR detection of viral RNA from COVID-19, influenza A, influenza B and RSV
<b>86317</b>	Immunoassay for infectious agent antibody, quantitative, not otherwise specified
<b>86318</b>	Immunoassay for infectious agent antibody, qualitative or semiquantitative, single step method
<b>86328</b>	Immunoassay for infectious agent antibody, qualitative or semiquantitative, single step method; severe acute respiratory syndrome COVID-19
<b>86408</b>	COVID-19 neutralizing antibody screen
<b>86409</b>	COVID-19 neutralizing antibody titer
<b>86413</b>	Quantitative antibody detection for severe acute respiratory syndrome COVID-19
<b>86769</b>	Antibody; severe acute respiratory COVID-19
<b>87250</b>	Virus isolation; inoculation of embryonated eggs, or small animal, includes observation/dissection
<b>87255</b>	Virus isolation; inoculation of embryonated eggs, or small animal, includes observation/dissection including identification by non-immunologic method, other than by cytopathic effect
<b>87426</b>	Infectious agent antigen detection by immunoassay, enzyme-linked immunosorbent assay, immunochemiluminometric assay, qualitative or semiquantitative, multiple step method, severe acute respiratory syndrome COVID-19
<b>87635</b>	Infectious agent detection by nucleic acid (DNA/RNA); severe acute respiratory syndrome COVID-19, amplified probe technique
<b>87636</b>	Respiratory virus multiplex testing for COVID-19 with influenza A and influenza B
<b>87637</b>	Respiratory virus multiplex testing for COVID-19 with influenza A, influenza B and RSV
<b>87811</b>	Antigen detection of COVID-19 by immunoassay with direct optical observation

\*Not reimbursable in Outpatient Hospital setting

# BILLING CODES

## Vaccine-Specific Codes for COVID-19\*

Code Range	Description
91300	COVID-19 vaccine, 30mcg/0.3mL dosage
91301	COVID-19 vaccine, 100mcg/0.5mL dosage
0001A	Administration of COVID-19 vaccine, 30mcg/0.3mL dosage, first dose
0002A	Administration of COVID-19 vaccine, 30mcg/0.3mL dosage, second dose
0011A	Administration of COVID-19 vaccine, 100mcg/0.5mL dosage, first dose
0012A	Administration of COVID-19 vaccine, 100mcg/0.5mL dosage, second dose

\*Reimbursable once available and if related to the work injury

## Common Telemedicine Codes During COVID-19\*

Code Range	Description
99201-99215	Office or other outpatient visit
G0425-G0427	Telehealth consultations, emergency department or initial inpatient
G0406-G0408	Follow-up inpatient telehealth services
99441-99443	Non-face-to-face telephone services
G2012	Brief communication technology-based service
G2010	Remote evaluation of recorded video or images
99453-99457	Remote physiologic monitoring
99421-99423	Patient initiated online digital E&M service
98970-98972	Qualified nonphysician online digital E&M service
G2061-G2063	Qualified nonphysician online assessment

\*Code 99072 for additional supplies, materials and clinic staff time is not reimbursable.

### Notes:

- Append telemedicine codes with modifier -95 for services normally done face-to-face
- Modifiers CR (catastrophe/disaster related) and CS (encounter and testing for COVID) are not necessary if documentation supports service is COVID related.
- Place of Service (POS) 02 is permissible; WSI does not apply POS differentials to the reimbursement rate.

A provider may review CMS' [Covered Telehealth Services for Public Health Emergency for the COVID-19 Pandemic](#) for a complete code list. WSI may honor a code from this list if related to the work injury and reimbursable in accordance with the [WSI Fee Schedule](#).
