

# Payroll Reporting Tips

Below are tips to assist in completing payroll reporting in [myWSI](#), WSI's online portal.

## Using the Excel template

1. On the page **Enter employee payroll information** click on **Download this Excel File** and use that template. You must use the downloaded template to enter payroll information as there is specific formatting that needs to be maintained. There are additional tabs in the workbook, a **Sample entry** and **My Rate Classes**, which provides a list of the rates assigned to the account.

myWSI

Home » Payroll Reporting » Payroll Reporting Contact » Business Demographics » Business Changes » Owner/Officer » Owner/Officer Coverage » Parent Company » Family Member » Rate Classes » Employee Payroll

**Enter employee payroll information.** ?

Select a reporting method to provide employee payroll information: Attach an Excel file (.xlsx), Manual entry, No employee payroll.

**Employee**

\* How do you want to enter employee payroll?  Attach a file  Manual entry  No employee payroll

Follow these steps to upload a file with employee payroll:

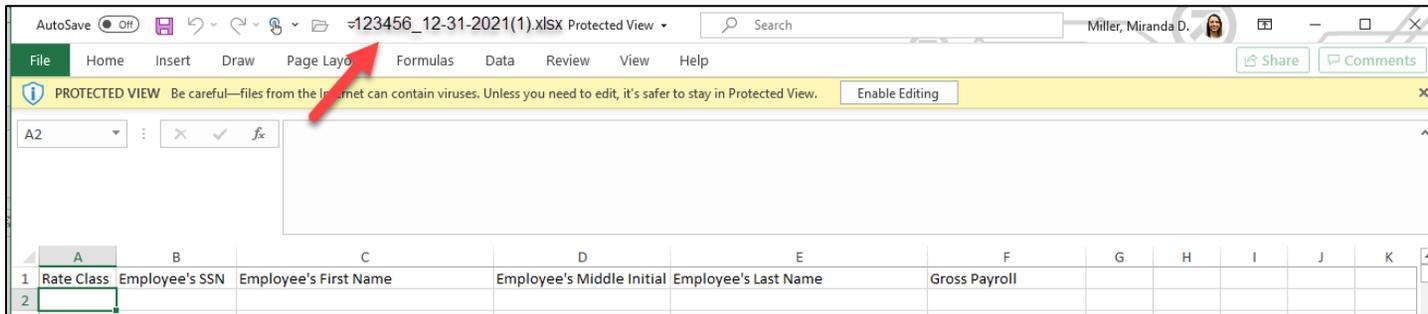

1. Download this Excel File template and save it to your computer.
2. Complete the required employee payroll information fields and save the changes.
3. To upload, select the file by clicking the Browse button to attach your Excel file.

2. When the template is downloaded, the **system assigns the file name, do not modify the filename.**

3. Select **Enable Editing** and **save a copy** of this report to your computer, do not modify the template name. Ex. 123456\_12-31-2021.xlsx

4. After saving the template, **copy/paste or enter employee information** into the template.

5. After all employee information is entered, **save the template, do not modify the filename.**

6. Go back to myWSI and **attach the file** from the saved location on your computer.

**payrollreporting.apps.uat.mywsi.workforcesafety.com says**

The following items must be corrected in order to save:

- The same SSN and Rate class may not exist on more than one row in the Payroll Detail sheet. Reference SSN
- The rate class for each employee cannot be blank and must be a rate class on the account. Please enter a valid rate class.
- SSN format is not valid. SSN must be 9 digits in length

OK
