2021 LMS Courses

Course ID	Course Title	Course Description
2020-PS5-102194	2020 - Welding, Cutting and Brazing: Methods	Different types of welding, cutting and brazing methods have different safety considerations. Take this course to learn about these considerations. Ideal learners are workers who perform welding, cutting and brazing.
2020-PS5-102118	2020 - Laboratory Biosafety Part 1: Understanding Risk	Do you know how exposure to potentially infectious materials can occur in your laboratory? Take this course to find out. You will learn about common biosafety hazard classification systems and the steps used to assess and manage the risks associated with potentially infectious biological materials. This course is ideal for anyone who works in a laboratory setting.
2020-PS5-20004	2020 - First Aid - Module 05 - Shock and Anaphylaxis Care	Do you know what it looks like when someone experiences shock and anaphylaxis? Do you know what to do? Take this course to find out what the signs and symptoms are and what first aid treatment you need to administer. Ideal learners are employees who have already taken in-depth first aid training.
