2020 LMS Courses

Course Course ID	Course Title	Course Description
2020-PS5-102267	2020 - Blocking and Cribbing	A lot of work requires the use of lifting tools such as hydraulic jacks, cranes and truck hoists. Because these lifting tools are used so frequently and are usually reliable, you may forget that any lifting tool can potentially fail. However, if you happened to be under a load during such a failure, chances are you would be injured or killed. That is why raised equipment must be properly blocked or cribbed. This course is designed to teach general blocking and cribbing safety principles and demonstrate how those principles are applied. This course is ideal for anyone who works with heavy equipment or who performs blocking and cribbing.
2020-PS5-102524	2020 - Defensive Driving Awareness	A split-second decision can change your life, especially when you are behind the wheel of a fast-moving, heavy vehicle. Take this course to refresh your memory about safe driving practices – particularly what you need to do before and during your drive. Ideal learners are anyone who drives cars or small vehicles.
