Safety Training and Education Program

Workforce Safety and Insurance introduced the Safety Training and Education (STEP) program in 2007. The purpose of the STEP program is to provide financial assistance to promote safety practices through safety training and education. The program seeks to enlist the resources of North Dakota associations and employee organizations to assist in reducing injuries and accidents. An association is a body of individuals or businesses operating under a common name, whether incorporated or not, who share common occupational risks and are grouped for a common cause or objective. Over \$7.4 million has been awarded through the STEP program through June 30, 2021

The following associations received funding through WSI's STEP grant program:

ABC Minnesota/North Dakota Chapter	ND Motor Carriers Association
Associated General Contractors of ND	ND Petroleum Council
Central Dakota Safety Association	ND Safety Council
Fargo-Moorhead Home Builders Association	North Central Safety Association
ND Association of Builders	Northern Occupational Safety & Health Association
ND Association of Counties	Northern Region Association of Safety Professionals
ND Construction Council	SkillsUSA
ND Firefighters Association	Southwest Area Safety Association
ND Healthcare Association	Tri-State Safety Association
ND Hospital Association
